**Press release**

## **Root 66 Recording Company**

Proudly Presents:

On February 14th, Valentine's Day 2007

The new single -

# **“California” by Dale Peterson**

c2007 Elad Music / ASCAP

Root 66 recording company proudly announces the release of, “California”, the first single from Dale Peterson's new CD, “Son of Harry” due out later this spring. This single is for radio promotion only.

“California” is a biographical snap shot of Peterson's life. And through the eyes of a young Dale we cross the swamps of Mississippi and the plains of Texas on a quest for the American Dream. This is west coast honky tonk, rock and blues.

Long time friend and roots rock legend, John “Juke” Logan shows up to play some Jerry Lee Lewis style piano on this rockin' track that will surely become a new anthem for the Golden State of California.

“Son of Harry” will be released in the spring of 2007 and marks the seventh release from this Los Angeles roots rock veteran. But until then check out this sneak peek into what will surely be one of 2007's best CDs, “Dale Peterson – Son of Harry”.

To receive a copy of the single or for product, promotional or booking information contact:
